Mariana Frühauf lives and works in Meran. The autodidactic artist loves experimenting with new techniques to break rules in a creative way. Using numerous methods to modify surface, colour and texture she creates her own fabrics and assembles them into one message.

Textile art is the medium that enables Mariana Frühauf to display her creativity in the most versatile way.

1966	born in Meran
1984	graduation in fashion design in Milan
1991	opening of a shop specialized on sewing accessories
